

PUBLIC SERVICE COMMISSION OF WISCONSIN

Memorandum

July 7, 2003

TO: The Commission

FROM: Jane Zemlicka, Consumer Affairs Analyst
Jeff Richter, Rate Analyst
Joyce S. Mahan, Assistant General Counsel

RE: MATERIALS YOU'VE RECEIVED ON THE REVISION OF CHAPTER PSC 165
(1-AC-184)

This is to briefly explain and provide additional information about the materials you have received concerning this docket.

First is a c-memo. In addition to deciding about the language changes based on the comments submitted about the version of the rule that was sent to hearing, there are six specific questions for the Commission to decide.

Second is a copy of how the rule would look if the version being examined by the Commission were adopted. Please note that many of the sections have been renumbered and are different from the numbers in the version of the rule that went to hearing. If an entire piece of the rule was deleted, that deletion is not shown. Where only a portion was deleted, the deletions are shown. The highlighted portions of the rule are not a part of this rulemaking, but will be dealt with in a separate docket concerning the technical portions of the rule. Therefore, only minor changes have been made to the highlighted portions.

Third is the report showing all of the comments, oral and written, submitted about the version of the rule that was sent for hearing. It includes a table of contents for your convenience. Please note that the rule numbers indicated in the comments report refer to the numbering under the version of the rule that went to hearing, which may not match the numbering in the revised version you now have before you. The "location" column in the report tells you where that comment appears in the submitted comments (you have copies of all of these), so that you can refer back to those comments more easily.

If any additional materials are needed, just let Jane Zemlicka, Jeff Richter or Joyce Mahan know!
